## Show Me! Tell Me! A New Approach to Outcomes Auditing

Voc Ed Learning Group (VELG) will be running a series of Professional Development workshops across Australia for RTOs seeking to understand auditing requirements and arrangements under the AQTF 2007 Essential Standards for Registration.

The AQTF 2007 Essential Standards for Registration focus on outcomes, which are demonstrated by the extent to which an RTO is achieving and sustaining quality training and assessment, client services and management systems. To become registered and to maintain registration, RTOs must demonstrate compliance with the AQTF 2007 Essential Standards for Registration. To assess this, a registering body may conduct an outcomes-focused audit.

This brand new workshop has been designed specifically to provide delegates with a detailed understanding of this new auditing approach through a range of information sessions and work-based activities.

For further information on the presenter, locations dates, venues and costs please go to [www.velg.com.au](http://www.velg.com.au).
